Rein in spending with greater security and control

Control employee spending

Set limits that work best for your business, including dollars per transaction, fueling locations, authorized times and days, product types, and more.

Know who spends what, where and when

Driver PINs entered at the pump add an **extra layer of security**, and help you track expenses by employee, location, and time of purchase.

Reduce unauthorized spending

Purchases outside your spending limits are **stopped at the pump.**† You can also get email alerts for suspicious activity, product exceptions, transaction errors, and more.

Use simple online and mobile tools

Manage cards and employees

Instantly add, cancel or update card and driver info.

Know where every dollar goes

Track spending in reports that list **driver, vehicle, fuel grade, product, and more** for every transaction.

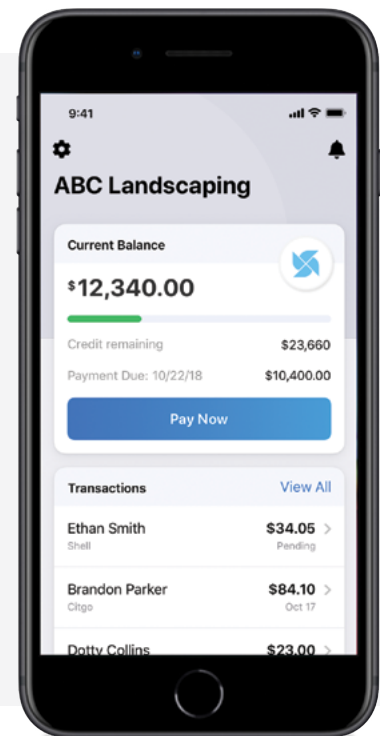

Easy mobile account management

Out of the office? Use our mobile app to **make payments, check your credit line, and manage your account.**

Driver Dash

Use our contactless payment app, **DriverDash**, to purchase fuel.

†Pump shut-off available at approximately 98% of the WEX acceptance network for transactions conducted at the pump. This functionality is not available for prepayment occurring inside the store.

FAQ

Are fleet cards only for large companies with a lot of vehicles?

No. A "fleet" can be a single car used by a sole proprietorship, or thousands of vehicles deployed by a large corporation. Any business with company vehicles can benefit from the right fleet card.

How is a fleet card better than cash or a company credit card?

Cash is easily lost or stolen, and you have little actual control over how much or where it can be spent. Credit cards give you basic purchase info but don't provide much insight into your spending. Also, credit cards are usually swipe-and-go, and don't require verification before use.

Are there any contracts?

Businesses are not required to sign a contract, and you can cancel at any time.

Are your reports compatible with my bookkeeping software?

Report data can be exported into most major bookkeeping and accounting software. You can also download them as PDF files.
